Description of the organisation

CISL Scuola, is the most representative trade union organization for school workers. In a difficult context, CISL Scuola takes the field every day to protect work in the school and support its necessary centrality in the strategies for relaunching the country's growth. A focus and commitment that ranges from care in support and advisory services to major national and international emergencies, with an active presence in every corner of Italy and in every workplace.

Experience of the organization in previous European projects

The experience in the previous project (CAVE Project) was very positive. It involved us in an interesting process of growth, discovery, and school engagement in the digital field. Through various phases, it was possible to experiment and evaluate the methods and processes of integrating digital tools into education

Experience and Expertise of the organization in the project's subject area

The CISL Scuola is well-qualified to participate in the project due to its commitment to teacher training and the advancement of educational systems.

Contributions that can be provided to the project

Potential contributions to the project stem from CISL Scuola's extensive experience in training and its strong focus on its members, ensuring a rich collaboration.

Reasons of involvement in the project

Involvement in the project is motivated by CISL Scuola's proactive approach to promoting education and its deep-rooted presence in the territory, demonstrating a strong commitment to its realization.

Contact Person's Experience and Expertise

The contact person from CISL Scuola brings significant expertise and experience in the field, further enhancing the organization's participation and leadership in the project.
